# Funding Gaps in Washington
## 2022–24

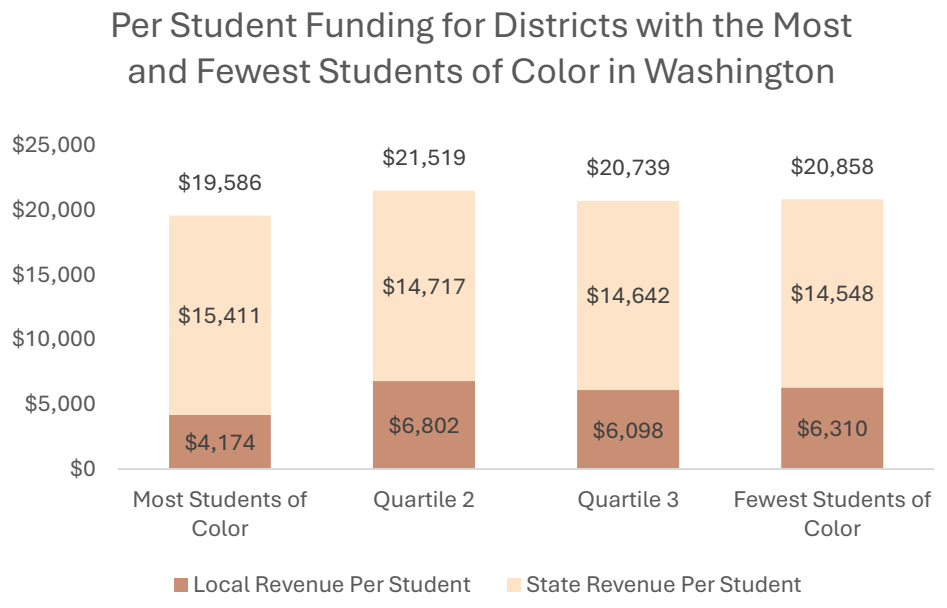

Every student deserves access to the resources they need to succeed in school and after high school. Yet, many high-needs districts receive less state and local funding than they need to support students. This snapshot shows how state and local funding differs between districts serving the highest and lowest concentrations of students of color, students from low-income backgrounds, and English learners in Washington. Together, these comparisons provide a clearer picture of which students have access to more resources and who is being left behind.

### Funding Gap between Districts Serving the Most and Fewest
### STUDENTS OF COLOR

The districts serving the most students of color receive $1,300 or

**6.1%**

less state and local revenue per student than the districts serving the fewest students of color.

## Funding Gap between Districts Serving the Most and Fewest
## STUDENTS FROM LOW-INCOME BACKGROUNDS

The districts serving the most students from low-income backgrounds receive $500 or

**2.4%**

less state and local revenue per student than the districts serving the fewest students from low-income backgrounds.

## Funding Gap between Districts Serving the Most and Fewest
## ENGLISH LEARNERS

The districts serving the most English learners receive $700 or

**3.3%**

less state and local revenue per student than the districts serving the fewest English learners.
