Funding Gaps in Wyoming
2022–24

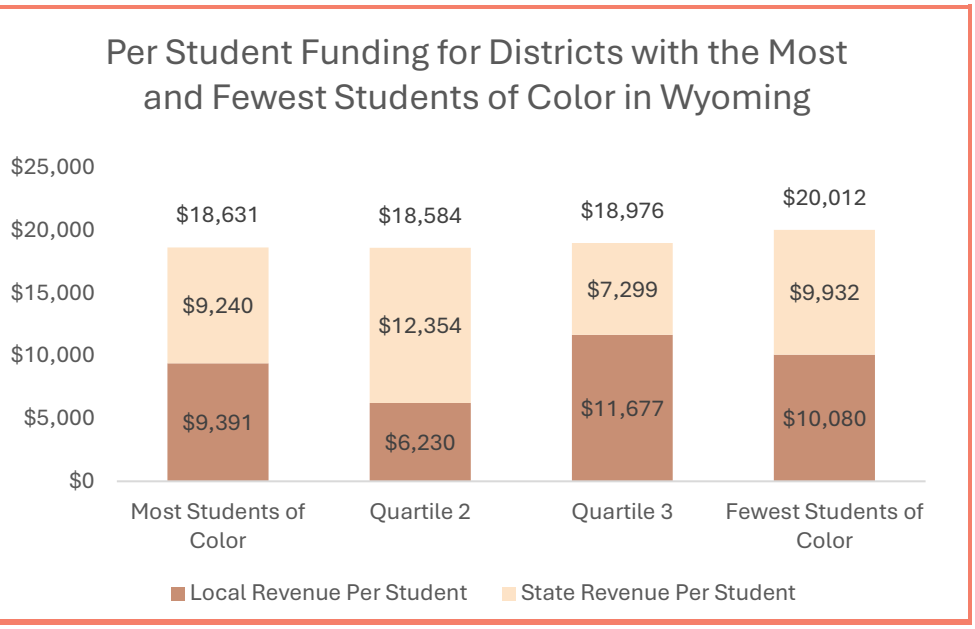

Every student deserves access to the resources they need to succeed in school and after high school. Yet, many high-needs districts receive less state and local funding than they need to support students. This snapshot shows how state and local funding differs between districts serving the highest and lowest concentrations of students of color, students from low-income backgrounds, and English learners in Wyoming. Together, these comparisons provide a clearer picture of which students have access to more resources and who is being left behind.

Funding Gap between Districts Serving the Most and Fewest
STUDENTS OF COLOR

The districts serving the most students of color receive $1,400 or

6.9%

less state and local revenue per student than the districts serving the fewest students of color.

Funding Gap between Districts Serving the Most and Fewest
STUDENTS FROM LOW-INCOME BACKGROUNDS

The districts serving the most students from low-income backgrounds receive $2,700 or

14.1%

more state and local revenue per student than the districts serving the fewest students from low-income backgrounds.

Funding Gap between Districts Serving the Most and Fewest
ENGLISH LEARNERS

Findings are not reported for Wyoming because English Learners make up less than 3% of the state's total student enrollment.
